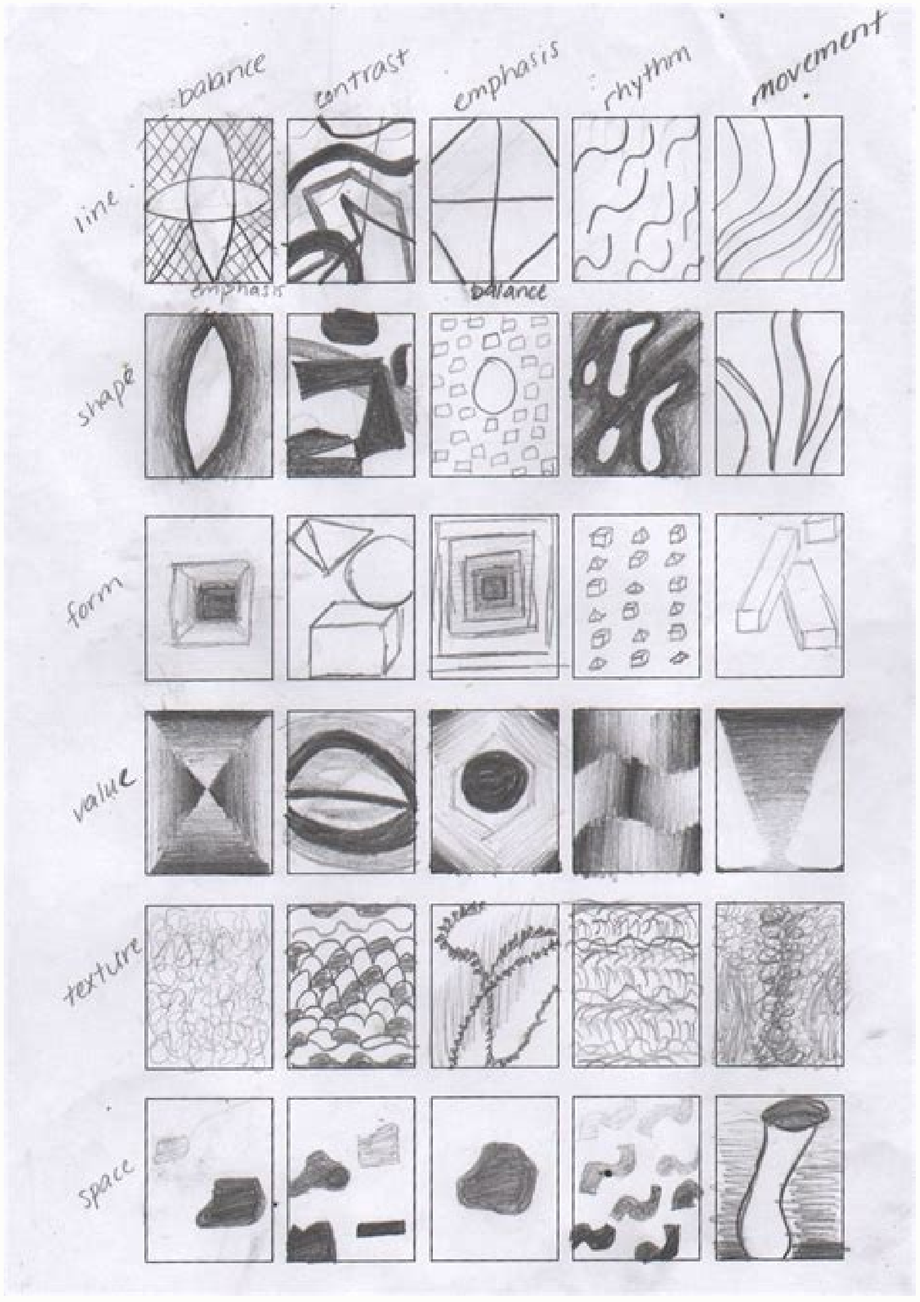
Design principles and elements worksheet



The Elements of Art

The elements of art are the basic visual symbols in the language of art. A symbol is something that stands for, or represents something else. In the language of art, we use visual symbols to communicate ideas. The elements are the visual building blocks that the artist puts together to create a work of art. No matter how a work is made, it will contain some or all of these elements.
**Read each definition below and draw an example of each element in the space provided.*

Line	A line is an identifiable path created by a point moving in space. It is one-dimensional and can vary in width, direction, and length.	
Value	Value describes the brightness or darkness of color. A gradient is a series of values from darkest to lightest.	
Shape	Shape and form define objects in space. Shapes have two dimensions, height and width, and are usually defined by lines. Shapes can be geometric or organic.	
Form	Shape and form define objects in space. Forms exist in three dimensions, width, height, and depth. Forms can be geometric or organic.	
Space	Space in a work of art refers to a feeling of depth or three dimensions. It can also refer to the artist's use of the area within the picture. There is positive and negative space.	
Texture	The surface quality of an object that we sense through touch: hard, soft, rough, smooth, hairy, leathery, sharp, etc. Visual texture is the appearance of texture on a flat surface.	
Color	Reflected light. Organized on a color wheel with 3 primary colors, 3 secondary colors, and 6 intermediate colors.	

The Principles of Design
(how to use the tools to make art)

Pattern		A regular arrangement of alternated or repeated elements (shapes, lines, colours) or motifs.
Contrast		The juxtaposition of different elements of design (for example, rough and smooth texture; dark and light colors) in order to highlight their differences and to create visual interest, or a focal point.
Emphasis		Special attention/importance given to one part of a work of art (for example, a dark shape in a light composition). Emphasis can be achieved through placement, contrast, colour, size, repetition,... Relates to focal point.
Balance		A feeling of balance results when the elements of design are arranged symmetrically or asymmetrically to create the impression of equality in weight or importance.
Scale		The relationship between objects with respect to their relative size. It is also about finding the relation between parts of a whole.
Harmony		The arrangement of elements to give the viewer the feeling that all the parts of the piece form a cohesive whole.
Rhythm/ Movement		The use of recurring elements to direct the eye through the image; the way the elements are organized to lead the eye to the focal area. The eye can be directed, for example, along edges and by means of shape and colour.
Unity		All parts of an image work together to be seen as a whole.
Variety		Using different elements in an image to create visual interest.

Click here for my first grade back-to-school starter kit, which includes first grade math, reading and much more.For bEarth and Human Activity Bundleby Teaching Science with Lynda R WilliamsThis package is for Earth and Human Activity for Middle School Science. A wonderful introduction to the 7 Elements of Art: Color, Value, Line, Shape, Space and Texture And Design Principles: Balance, Focus, Contrast, Proportion, Rhythm, Movement, Pattern and Repetition, and Unity and Variety! THIS IS A BUNDLE! Do not buy them individually if you have purcPage 2Earth and Moon, Eclipses, Solar System, Sun, Planets, Asteroids, Meteors and Comets by distance learning complete video lesson. Therefore, note thPage 19STEM Challenges: Stick Tower STEM Activity (Science, Technology, Engineering, Mathematics):STEM activities and challenges are great for developing critical thinking, teamwork, design, analysis, innovation and others important skills for young scientists, mathematicians, engineers and all other studentsPage 20Figure Drawingfor This PowerPoint contains 95 slides and 100 images of figure drawings. This resource is a complete unit for teaching the End of Year Review: First Degree Mathematics Bundleby This package includes 86 worksheets aimed at each Common Core Math standard for first grade. Organisms are classified into seven primary groups: kingdom, edge, class, order, family, genus, and species. Important religious principles of the Calvinist will be discussed, as well as the Mayflower Pact, the “Time of Hunger” and the relations of the pilgrims with Native Americans, including SquanArt classes for elementary grades Bundleby Art for elementary grades. Includes a diagram for StudeConstitution Day PowerPoint and printable by This Constitution Day PowerPoint helps to understand the history of the Constitution of the United States, its structure and function in government, and the base base He keeps it. Here are just a few of the resources included:ToursElevatorsMachines, phonetic resources weiK-3 freeby K-3 Phonics Resources is a comprehensive phonetic resource to help kindergarten, 1st grade, 2nd grade, and 3rd grade teachers systematically teach phonetics on a daily basis. is included?Teacher Reference PagesWords you should know about phoneticsNotes StimulationPhonological ConsciousnessDaily Phonics LessonSample This is a resource package on Earth Sciences for Middle School. Students will complete a phase change diagram, labeling fusion, freezing, evaporation, condensation, sublimation and deposition and drawing a molecule modelPage 26This set of 45 task cards is designed for teaching review, and strengthen the APPLICATION of the scientific method. Includes everything a traditional classroom teacher needs to teach an introduction to the Elements and Principles of Art (including printable materials, activities and instructional videos).**Now ALL 11 videos and 166 PDF pages are included in an easy-to-use ZIP. fTypes:Page 10Meiosis Worksheet (K) ey) by Answer key to free workhoet available at: has students practice vocabulary skills, such as diploids, haploids, synapses, gametus, zygote and general principles related to sexual reproduction. Simpson This weight training program is designed to give PE teachers and/or coaches such a wide variety of resources that you will have an amazing “Weight, Strength and Conditioning Training” program that is tailored to YOUR needs. They can be republicanism, popular sovereignty, separation of powers, checks and balances, limited government, federalism and individual rights.Everyone Learns SeriesWith this resource, Everyone The Principles of Business: Unit 18, Consumer Credit, all students will learn about 25 new key concepts and vocabulary. All the principles of packetby design of course assumption you have an Elements of Art packet (see my store!), you need a Principles of Design packet as well. Answer keys and a Everyone Learns SeriesWith this resource, Everyone Learns The Principles of Business: Unit 14, Risk Management, all students will learn 25 new key concepts and vocabulary terms. From sketches and gesture drawings, to proportioning, careers, and finished projects, this presentation has it all. The PowerPoints have numerous check for understanding slides spread throughout the slide show. This Art Game Bundle includes the following 7 PowerPoint-based art games:¢ÃÂ¢Â Principles of Design Review Game (Interactive PowerPoint Art Game)¢ÃÂ¢Â Elements of Art Review Game: Line and Texture (Interactive PowerPoint Art Game)¢ÃÂ¢Â Elements of Page 11Bible Puzzles - Activities and Worksheets contains 14 crossword, wordsearch and other activities and puzzles.Bible puzzle titles include: Who do you say that I am?, Biblical Principles to Live By, The I's Have It, A Faithful Lot, K's of the Bible, Jonah, It's a Miracle, Cities That Paul Visited, OlPage 12Traits and Inheritance - Third Grade - NGSS Aligned- Complete UnitThis is a complete, hands-on, in-depth science unit for teaching about Traits and Inheritance. These animals include the: baboon, Cape Buffalo, crocodile, elephant, African foxes, giraffe, hippo, hyena, impala, kudu, lion, monkey, African owls, rhino, snakes, skPage 4This activity creates an art gallery in your own classroom! The students can analyze the pictures they see. All of the worksheetPrinciples of Design for Elementary Artby 24 Printable cards that highlight 8 different Principles of Design. All of the worksheeEveryone Learns SeriesWith this resource, Everyone Learns The Principles of Business: Unit 17, Banking and Financial Services, all students will learn 25 new key concepts and vocabulary terms.
